

## REV. W. H. DAY ON IRISH BOARD

Rev. William Horace Day of Bridgeport; Rev. Watson M. Phillips of Ansonia and Mayor George A. Quigley of New Britain are representatives of the Committee of One Hundred on Ireland, which will select a commission of five to conduct an impartial inquiry into conditions in Ireland.

Owing to the widespread interest in the investigation, the committee has expanded to nearly 150 members, including the governors of four states, ten United States senators, thirteen mayors and eleven bishops, besides jurists, publicists, editors, educators, business men and labor leaders. Its personnel includes Jane Addams; United States District Judge Charles F. Amidon of North Dakota; Cardinal Gibbons; Dr. George W. Kirchwey, former dean of the Columbia Law School; Dean Robert Morse Lovett of the University of Chicago; Rev. John A. Ryan of the Catholic University; Dr. William Austin Smith, editor of the *Churchman*.

Members of the Committee of One Hundred are now balloting for the election of the commission of five, which will start its inquiry by sessions at Washington at the earliest practicable date. Both Sir Auckland Geddes, the British Ambassador, and President De Valera have been invited to co-operate with the Commission and furnish witnesses.

## SEN. HITCHCOCK ANSWERS ALL WHO ASK ABOUT LEAGUE

Question.

Why wasn't Ireland recognized when making the settlement at Versailles? Why didn't they consider the Irish question then? Why can Article XI, do so much now and nothing then?

Answer.

That is a very fair question and entitled to a fair answer. It is because the meeting in Paris was called for the purpose of bringing about peace between the nations that had been fighting Germany and Austria. It was a peace settlement and all that was done outside of the peace settlement was to form the Covenant of the League of Nations for the purpose of preventing an additional war. There were many other troubles in the world which many people would have liked to bring in there. The Irish question couldn't be brought in because Great Britain wouldn't consent. The most that could be done was to provide in this way an international tribunal where Ireland might be given a hearing in the future.

Question.

How was it that Canada, Australia, South Africa and all the others got representation in this League of Nations? How was it Ireland made a call for it over there and wasn't heard?

Answer.

The reason was very obvious. These other nations had their governments and organizations and were parties to the war. Canada had her government that decided to take part in the war. The governments of New Zealand and Australia had taken part. Only the countries that were official parties to the war were represented at the peace settlement.

Question.

What was the percentage of the Irish people that volunteered in the army before this country went to arms?

Answer.

It was very large. There were no doubt a great many Irishmen that volunteered over there and a tremendous number of Irishmen in the United States and they had as large a representation and as much glory in the war as any element, but there was no organized Ireland as a party to the war that would sign a treaty of peace and we would have been invited in with Great Britain if we insisted on the case being heard. I glory that Great Britain has consented now that hereafter the United States can bring up the Irish question in a place where the voice of Ireland cannot be still, and I call your attention to the fact that Governor Cox, the Democratic candidate as said frankly and openly to the American people that if he is elected President of the United States and they enter the League his first instruction will be to bring the question up in the Council or the assembly.

Question by Steinlauf.

This so-called document, this so-called 14 points of which Woodrow Wilson bravely declared to our boys, and which was the cause of our going to war, why didn't he introduce that at the peace conference, or was it a scrap of paper?

Answer.

Most of the fourteen points were incorporated in the peace treaty. The President tried to get them all in. One of the shameful facts of history was that while the President was over there struggling for ideals there was a conspiracy of senators in the United States doing all they could to discredit and weaken him by stabbing him in the back.

## THREW RADIUM IN DRAIN PIPE

(By International News Service.) Thomasville, Ga., Oct. 12.—There was consternation among the doctors of the Radium Institute here when it was found that \$7,000 worth of radium had been thrown into a sewer.

The radium was being used in treating a negro woman for cancer at the hospital and was left attached for a certain length of time. Deciding that she did not like the odor of radium and saw no good in a little think like that, anyway, the woman, happening to be left alone, cut the string holding it and going to the bathroom threw the costly remedy into the sewer. When the attending physicians returned and found the radium missing and learned of its disposition excitement reigned supreme.

Plumbers were hastily summoned, sewer pipes torn up and rigorous search made. After extended search the tiny tube, hardly larger than a needle, was found lodged against the sewer trap in the yard of the hospital.

A young plumber named Sullivan received the \$100 reward offered for the recovery of the radium.
